

Anna Frankenberg, Aviation Management **„Bad Honnef – the right choice“**

I have just finished my sixth semester in aviation management. Since I started the university has grown to a real campus. In my first semester I was glad to live in one of the dorms, where I could make new friends very easily. In the third semester I had the chance to study one semester in the USA and I am still in touch with my teachers over there. After my stay there I was able to use my acquired aviation management knowledge in an internship. The university is not only preparing our

educational standard but also our personality, through studying abroad, internships and many team projects during the courses. I like the atmosphere on campus as well as in the courses. It is small university and you get in contact with nearly everyone. Even if it is a small town there's always something to do in the evening. I feel well prepared for my future and I'm glad to have chosen studying in Bad Honnef.
